

Not Just Clean, It's Green

Minuteman is ready to support and provide our customers with new and innovative products that meet green cleaning standards. We are dedicated to reducing the cost of cleaning, providing safe equipment and chemicals with a low impact on the operator and environment, improving indoor air quality and promoting eco-efficiency and sustainability. Minuteman is committed to bringing our equipment and chemicals up to the green cleaning standards. This will provide our customers with "green" options from Minuteman's already trusted line.

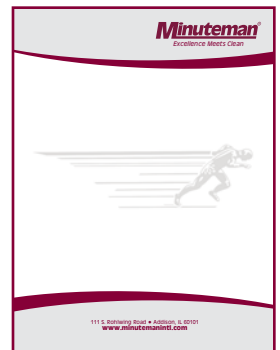

Featured Product

The EX12 and EX12H made their debut at the ISSA show and were met with a positive reception. The EX12 is a 12 gal. portable carpet extractor with a 100 P.S.I. pump. The EX 12H is a 12 gal. portable carpet extractor with a 250 P.S.I. Pump and a 2.4HP heater. Look for the official launch package and literature to be distributed in the near future.

A New Look for Minuteman

A new look is taking shape! New graphics are refreshing the look of Minuteman. You should begin to notice the makeover on Minuteman literature, advertising, marketing collateral, and the new website (set to launch in November 2006.)

THANK YOU!

Thank you for visiting the Minuteman booth during the ISSA Show earlier this month. Once again, you helped make this a successful event.

We are excited about our new corporate identity and are confident that you will benefit from the programs and changes that are taking place.

Thank you for your business.

Regards,

Rudi Gutmann
President and CEO
