PowerBoss to Launch new Admiral Series line up in 2010

With 2009 behind us, PowerBoss is excited to introduce several new machines to it's already stellar product line. The Admiral Series which currently boasts several Rider Scrubbers and sweeper/scrubbers will be welcoming three new units which will come in several models. The Admiral 26 which will be available in February of 2010 is a 26" Rider Scrubber available in disc and cylindrical deck models. This unit offers our customers: 27 gallon solution and 27 gallon recovery tanks, a 1HP, 3-Stage tangential Bypass Vacuum Motor, one button smart-scrub control, and a break-away swing rear parabolic curved squeegee for maximum water lift and safety of the surrounding area. "We are very excited about all the introductions to our product line in 2010" said Troy Hanne, VP Sales at PowerBoss. "But none more

then the Admiral 26 which gives our customers longer run time, better pick up, and a cost savings on top of everything." Beginning in May of 2010 PowerBoss will also introduce the Admiral 28Plus and 32Plus to it's offering. These units will come standard with a 32 gallon solution tank, and 38 gallon recovery tank. The Admiral 28/32Plus units have also been engineered to accomplish longer run time, best in class maneuverability, increased quality and safety, along with a very competitive price.

Promotion: Brooms & Brush Blowout

POWERBOSS has targeted a wide array of Brooms & Brush's based on specific machine sales to give our dealers a price they cant beat. We have discounted many of these brooms and brush's by more than 50% to let our dealer network know we mean business. A 42" Stiff poly broom which lists at \$317.00 is now only \$105.00 during this promotion. The entire promotion and brush guide can be found on the PowerBoss dealer website.

Ventas Internacionales ?

Through economic uncertainties PowerBoss has continued to grow it's International presence. Our International dealer base stretches world wide including Mexico/Columbia, Indian Sub continental, Persian Gulf, and across the oceans via the United States Navy. "We're very pleased knowing that PowerBoss product is currently in use keeping industrial locations all over the world clean" Said Chris Failla, PowerBoss international sales specialist. "This is consistent with our new Dealer sign up campaign"

Customer Service: Price Pages and More

PowerBoss Customer service will have the 2010 product offering (Price Pages) available this week. "It is very important that we ask our dealers to supply us with updated contact information so we can update our system, packaging slips, invoices, etc." said Dan Spapperi, PowerBoss Customer Care Manager. "It's critical that we stay in touch with our dealer network, and it all starts with keeping us in the loop on critical information." Please provide updated information to us if applicable.

Sales Tax-Resale Certificates 2010:

It is imperative that our U.S. dealers fill out the form located on the PowerBoss dealer website. Unless PowerBoss receives a completed Tax-resale form by the end of February all sales will be treated as taxable, and a sales tax will apply to current PO's.

The form can be downloaded at:
Dealers.powerboss.com

"I enjoy using my field knowledge to help diagnose and assist our dealer network in getting their machines back in action."

***Greg Fisher,
Technical
Service Rep***

Technical Service Staff

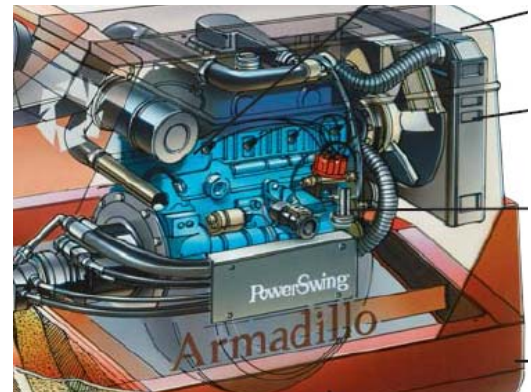

In our ongoing effort to increase customer satisfaction, PowerBoss has added an additional Technical Service Representative to its ever-growing staff. Greg Fisher transferred internally from PowerBoss's Villa Park, IL location to the Minuteman HQ located in Pingree Grove, IL in late September, and with him he brings six years of technical knowledge on servicing and maintaining these robust machines. "I enjoy using my field knowledge to help diagnose and assist our dealer network in getting their machines back in action." said Greg Fisher, PowerBoss Tech Service. Greg also works hand in hand with Jimmy Spurill and Buck Parenteau both seasoned technical support staff team members. Between the three representatives they often log upwards of 2000 phone calls a month, or roughly 500 a week in assisting PowerBoss related technical questions. Keep up the good work!
