

**Minuteman**<sup>®</sup>  
Excellence Meets Clean

**Vac 35**<sup>®</sup>  
Walk-Behind Litter Vacuum

## General Overview

- Models available to meet a wide variety of applications
- Excellent on turf or hard surface applications
- Unequalled vacuum power and superior maneuverability
- Vacuum housing is constructed of a tough lightweight ABS plastic and contains a foam backed steel liner providing exceptional durability while reducing noise and vibration
- Models available in internal combustion or battery for use where gas is restricted and clean air or quiet operation is required

## Productivity

- The Vac-35 will clean up to 30,000 sq. ft. per hr.
- Heavy-duty impeller reduces debris down from an 8 to 1 ratio
- Large 5" x 14" fully pneumatic, deeply cleated tires are positioned for ease-of-use and maneuverability and comes standard with variable height adjustment for flexible use on turf or hard surfaces

## Key Features

- Easy on/off 30" wide intake, manufactured with a high impact resistant, tough plastic material specifically designed for debris pickup applications, rubber skirt and corner guards prevent damage to intake
- Chassis is constructed of 12-gauge welded steel providing solid and reliable framework
- Large capacity, 11 cu. ft. felt bag is standard
- Spink Pak deflector controls airflow to direct debris downward and safely controls litter flow downward instead of where the operator is standing
- Impeller is a strong but lightweight aluminum/magnesium alloy, 5-blade, non-sparking and computer balanced at the factory, reduces debris down 8 to 1
- Anti-wrap ring prevents debris from wrapping around impeller and engine to avoid serious damage

## Safety

- Spink Pak deflector controls airflow to direct debris downward and safely controls litter flow downward instead of where the operator is standing
- Heavy-duty 1" diameter tubular steel handles are designed for operator comfort and reduces back strain

## Accessories/Options

- Variety of optional bags for pickup in many applications
- Bag Platforms available for most models
- Sulky seat is available for self-propelled models
- Brush kits, magnetic bars and scraper bars are available for the intake
