

Wide Area Walk Behind Commercial Vacuum

- A wide 30" Path Covers Large Spaces Quickly and Efficiently
- On-board Tools and Telescopic Wand Make Detail Cleaning Easy
- Clean Air Filtration System Provides 95% Filtration
- Lightweight and Low-Profile for Ergonomic Operation
- Handle Folds for Compact Storage

The MPV Wide Area Vacuum provides powerful suction to clean large carpeted spaces with speed, effortless maneuverability and quiet operation

Minuteman[®]
More Than Just Clean

The filtration system consists of an embossed polyester filter bag, disposable paper bag, foam filter intake filters on the dual vac motors and an exhaust filter.

Multiple handle adjustments to fit operator height. Standard on-board dust brush, crevice tool and combination hard floor carpet tool standard. The handle folds for ease of compact, tight storage, keeps all on-board tools locked in place.

Specifications
