Warranty	Parts 5 years / 3 year labor / 12 year body

The versatile light weight one button operation Tsunami offers elevated air intake with exceptional suction, while the wet option makes the use of a mop and bucket an obsolete task.

The *Tsunami* operates on a 15 amp, 115 volt 60hz, AC circuit.

Wet - The wet unit is equipped with a 24" primothane squeegee. (pictured above)

Wet/Dry - The wet/dry unit along with the primothane squeegee offers a variety of dry attachments (pictured above). These attachments allow access hard to reach spaces.

Built in vacuum -

The built in placement of the vacuum motor extends the life of the motor and eliminates unnecessary damage.
